

THE NATIONAL BOARD OF CERTIFICATION FOR MEDICAL INTERPRETERS

2016 ANNUAL REPORT

Medical Interpreters Certified 2016

Active certifications are those CMI credentials that are not expired, either because the original expiration date has not yet been reached or because the interpreter chose to recertify (renew the credential rather than allowing it to expire). Total certified to date includes all CMI credentials that have been issued by the National Board in each of the six languages as of 12/31/16 (both active and expired).
